MAS: P: 1 & 2                                                                          Mr. Pate

**Discuss IT Topic 5: Battle of the Animation Studios**

**Discuss IT Topic:**  Over the next couple of years, many design studios will be releasing and rereleasing new films based on previously scene characters and storylines. Star Wars, although it dates back to the 1970's is going back in time in the story, but they are more popular today than ever, even though the story has been gone back and forth numerous times. From Wonder Women, to three different versions of the Hulk, Spider-Man, and Bat-Man, these films keep coming out every year. Why are these films so popular? Are the movie goers not worried about reboots? Could it be the effects and realism of the characters? Explain…

**Response:** Please make sure all grammar, spelling, indentation, and punctuation is correct.

        These films are all so popular because of the technology involved. Since the 1970's these movies have had an immense amount of technology in them and because of that they are still popular to this day. I think that the fans of these movies that have different versions are always excited to come back and watch another one. Yes, I agree that the effects and the realism of the characters have a lot to do with the return of the fans because everyone is always excited to see what new effect they will add to the new up coming movie.
